

MAPP 14851

Contains 255 g/l (25% w/w)
iprodione as a suspension
concentrate.

Pure Turf

PURE TURF is a protectant dicarboximide fungicide with protectant and eradicant activity for control of Fusarium Patch, Dollar Spot and Red Thread in managed amenity turf such as golf course greens, tees and up to 5 % of the fairway area

PURE TURF MAPP 14851

HARMFUL

**LIMITED EVIDENCE
OF A CARCINOGENIC
EFFECT**

**DAANGEROUS FOR
THE ENVIRONMENT**

**VERY TOXIC TO
AQUATIC ORGANISMS,
MAY CAUSE
LONG-TERM ADVERSE
EFFECTS IN THE
AQUATIC
ENVIRONMENT**

Keep out of reach of children.

**Keep away from food, drink and animal
feeding stuffs.**

Wear suitable protective clothing and gloves.

**This material and its container must be
disposed of in a safe way.**

**Use appropriate containment to avoid
environmental contamination.**

**If swallowed, seek medical advice immediately
and show this container or label.**

**To avoid risks to man and the environment,
comply with the instructions for use.**

IMPORTANT INFORMATION

**FOR USE ONLY AS AN AMENITY/HORTICULTURAL FUNGICIDE RESTRICTED TO
PROFESSIONAL USERS.**

Crop	Maximum individual dose	Maximum number of treatments per crop	Latest time of application
Managed amenity turf – see other specific restrictions	20 L/ha	Four per year	1/4

Other specific restrictions:

For use only on golf greens, tees and patch treatment of up to 5% of the fairway area.
A minimum interval of 4 weeks must be observed between applications.

**READ THE LABEL AND SAFETY PRECAUTIONS BEFORE USING. USING THIS PRODUCT
IN A MANNER THAT IS INCONSISTANT WITH THE LABEL MAY BE AN OFFENCE.

SHAKE WELL BEFORE USE**

SAFETY PRECAUTIONS

Operator Protection

TAKE OFF IMMEDIATELY heavily contaminated clothing.
WHEN USING, DO NOT EAT, DRINK OR SMOKE.
WASH SPLASHES OF CONCENTRATE from skin and eyes immediately.
WASH HANDS AND EXPOSED SKIN before meals and after work.
IN CASE OF ACCIDENT OR IF YOU FEEL UNWELL, seek medical advice immediately and show this label where possible.

Environmental Protection

DO NOT contaminate water with this product or its container. Do not clean application equipment near surface water. Avoid contamination via drains from farmyards and roads.

DO NOT ALLOW DIRECT SPRAY from horizontal boom sprayers to fall within 5m of the top of a bank of a static or flowing water body unless a Local Environmental Risk Assessment for Pesticides (LERAP) permits a narrower buffer zone, nor within 1m of the top of a ditch which is dry at the time of application. DO NOT ALLOW DIRECT SPRAY from hand-held sprayers to fall within 1m of the top of the bank of a static or flowing water body. Aim spray

away from water. This product qualifies for inclusion within the Local Environmental Risk Assessment for Pesticides (LERAP) scheme. Before each spraying operation from a horizontal boom sprayer, either a LERAP must be carried out in accordance with PSD's published guidance or the statutory buffer zone must be maintained. The results of the LERAP must be recorded and kept available for three years.

Storage and Disposal

KEEP IN ORIGINAL CONTAINER tightly closed in a safe place.
WASH OUT CONTAINER THOROUGHLY and dispose of safely.
DO NOT RE-USE CONTAINER for any purpose.
WHB classification: III (Slightly hazardous)

DIRECTIONS FOR USE

NOTE: These Directions for Use form part of the Approved Product label and must be read before using the product.

PURE TURF has curative and protectant activity against a range of turf diseases and is approved for the control of Fusarium Patch (*Microdochium nivale*), Dollar Spot (*Sclerotinia homoeocarpa*) and Red Thread (*Laelisaria fuciformis*). When present at application, useful reduction of the incidence of Anthracnose (*Colletotrichum cereale*), Leaf Spot (*Drechslera poae*) and Rust (*Puccinia coronata*) is also achieved.

It may be applied to golf greens, tees and as a patch treatment of up to 5% of the fairway area at any time of year. The formulation is very rainfast and can help to prevent the retention of morning dew on grass leaves which means that switching to remove this dew becomes unnecessary.

RESTRICTIONS

PURE TURF can be used on grass after cutting but the grass should not be cut again for at least 24 hours.

Resistance

PURE TURF is a dicarboximide fungicide with the FRAC mode of action code 2. To reduce the risk of the development of resistance, PURE TURF should be used in programmes which include fungicides with alternative modes of action either as sequences or as tank-mixtures as well as non-chemical methods of control. This is purely to reduce the risk of the development of resistance since there have not yet been any recorded instances of turf pathogens which have developed resistance to this class of fungicides.

CROP SPECIFIC INFORMATION

Dose: For control of Red Thread or Fusarium Patch, apply 20L/ha PURE TURF in a minimum of 400–500 litres of water per hectare. When using a knapsack sprayer instead of a vehicle-mounted hydraulic sprayer, applying 200 ml PURE TURF in 5 litres of water to an area of 100 sqm will achieve this dose rate.

Timing: For curative activity, apply at the first sign of the disease in the grass and repeat as necessary at intervals of one month or greater. For preventative activity, apply at monthly intervals. Applications can be made to golf courses at any time of year.

MIXING & SPRAYING

Before spraying it is important to check all hoses, filters and nozzles, and to ensure that the sprayer is clean and correctly set to give an even application at the correct volume. Half fill the spray tank with clean water. Begin agitation, shake the container of PURE TURF and add the required quantity directly to the tank. Add the remainder of the water and agitate the mixture thoroughly before and during spraying. Spray immediately after mixing and wash out spraying equipment with clean water immediately after use.

CONDITIONS OF SUPPLY

All goods supplied by us are of high grade and we believe them to be suitable but, as we cannot exercise control over their storage, handling, mixing or use or the weather conditions before, during and after application which may affect the performance of the goods, all conditions and warranties, statutory or otherwise, as to the quality or fitness for any purpose of our goods are excluded and no responsibility will be accepted by us or re-sellers for any failure in performance, damage or injury whatsoever arising from their storage, handling, application or use. These conditions cannot be varied by our staff or agents whether or not they supervise or assist in the use of such goods.
