

Abzorb

TRIPLE ACTION WETTING AGENT

10 LITRES

Abzorb is a super wetting agent derived from surfactants with a very low environmental impact. Abzorb assists the rapid penetration of water in dry areas for medium to long term re-wetting. This fast acting wetting agent attaches itself to the waxes and lipids left by fungal spores on soil and sand particles, which in turn attracts water molecules allowing hydrophobic areas to be re-wet. Abzorb contains a blend of soil penetrating surfactants, that help to re-wet dry areas of turf colonised by Fairy Ring.

DIRECTIONS FOR USE

When using, part fill the spray tank with clean water, add the required amount of Absorb, agitate and then add the remainder of the water.

For best results use an initial rate of 20L per Ha followed by maintenance applications of 10L per Ha.

Do not apply during very high temperatures and bright sunlight.

HEALTH & SAFETY INFORMATION

May cause skin irritation. Causes serious eye irritation. Wash hands thoroughly after handling. Avoid release to the environment. Wear protective gloves/eye protection. IF IN EYES: rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do so. Continue rinsing. If irritation occurs: get medical attention.
