#### **Product description**

The Sportsmaster products contain compound granular fertilizers. They are manufactured as minigranules providing ease of application and an even distribution. This ensures even growth, quality and colour over the whole area and prevents unsightly speckling effects.

#### **Product advantages**

- 1. For all round use, especially in spring and summer.
- 2. Breaks down rapidly to give rapid uptake of nutrients.

#### Directions for use

- Apply to dry foliage and irrigate after 1-2 days if no rain has fallen.
- Irrigation will aid dispersion and minimize any risk of mower pickup on close mown surfaces.
- Avoid applications during frosty or drought conditions.
- Delay verti-cutting and/or grooming for 3 days after application to allow the granules to disperse.

#### Storage

Keep away from heat and sources of ignition. Keep away from food, drink and animal feeding stuffs. For quality reasons: Keep out of reach of direct sunlight, store under dry conditions, partly used bags should be closed well. Keep at temperatures between 0°C and 40°C.

#### Health & Safety

A Material Safety Data Sheet is available on request.
