

Chipco[®] Green

FUNGICIDE

✓ A contact acting fungicide for the control of Red Thread (*Laetisaria fuciformis*) and Dollar Spot (*Sclerotinia homeocarpa*), moderate control of Fusarium Patch (*Microdochium nivale*), and useful reduction of Anthracnose (*Colletotrichum cereale*), Leaf Spot (*Drechslera pose*) and Rust (*Puccinia coronata*) where present at time of application, on managed amenity turf * (*See Important Information)

5 L e

WARNING

CHIPCO® GREEN

Contains 25% w/w Iprodione
Suspension concentrate (SC)

Suspected of causing cancer.

Very toxic to aquatic life with long lasting effects.

Wear protective gloves / protective clothing / eye protection / face protection.

If exposed or concerned: Get medical advice / attention.

Dispose of contents/container to a licensed hazardous waste disposal contractor or collection site except for triple rinsed empty containers which can be disposed of as non-hazardous waste

To avoid risks to human health and the environment, comply with the instructions for use.

Contains 1,2-benzisothiazolin-3-one. May produce an allergic reaction.

PCS 02714

Important Information:

FOR USE ONLY AS AN AMENITY/ HORTICULTURAL FUNGICIDE RESTRICTED TO PROFESSIONAL USERS.

For use on managed amenity turf (see 'Other Specific Restrictions').

Maximum individual dose: 20 L/ha.

Maximum number of treatments: 4 per year.

Other Specific Restrictions:

A minimum of four weeks must be observed between treatments.

For use on:

(a) commercial and residential lawns up to 200 m², and patch treatments of up to 5% of estate lawns up to 5,000 m² (i.e. 250 m²)

(b) bowling greens, cricket pitches (excluding outfield), lawn tennis courts and professional sports grounds/stadiums

(c) golf greens, tees and patch treatment of up to 5% on fairways.

Read the label before use. Using this product in a manner that is inconsistent with the label may be an offence.

USE INSTRUCTIONS:

IMPORTANT: This information is approved as part of the Product Label. All instructions within this section must be read carefully in order to obtain safe and successful use of this product.

CHIPCO® GREEN can be applied year round to:

- commercial and residential lawns up to 200 m², and patch treatments of up to 5% of estate lawns up to 5,000 m² (i.e. 250 m²)
- bowling greens, cricket pitches (excluding outfield), lawn tennis courts and professional sports grounds/stadiums
- golf greens, tees and patch treatment of up to 5% on fairways.

GENERAL INFORMATION:

CHIPCO® GREEN is a contact fungicide containing iprodione which has curative and preventative action against a range of turf diseases. Its special liquid formulation is rainfast within 1 hour and can prevent the build-up of morning dew on grass leaves. 'Switching' to remove this dew is therefore usually unnecessary.

RESTRICTIONS:

If grass is being mown, CHIPCO® GREEN should be applied after cutting and further mowing should not take place until AT LEAST 24 hours after treatment.

APPLICATION RATE:

For control of Red Thread and Dollar Spot, moderate control of Fusarium Patch and useful reduction of Anthracnose, Leaf Spot, and Rust, use 20 L/ha of CHIPCO® GREEN in a minimum of 400 - 500 litres of water per hectare of turf.

Application Equipment	Vehicle-mounted Hydraulic Sprayer		Knapsack Sprayer	
	Rate per ha	Water per ha	Rate per 100 m ²	Water per 100 m ²
<i>Microdochium nivale</i> (Fusarium Patch), <i>Laetisaria fuciformis</i> (Red Thread) <i>Sclerotinia homeocarpa</i> (Dollar Spot) <i>Colletotrichum cereale</i> (Anthracnose) <i>Drechslera pose</i> (Leaf Spot) <i>Puccinia coronata</i> (Rust)	20 L	500 L	200 ml	5 L

TIMING OF APPLICATION:

Curative: Apply at the first sign of disease and repeat as necessary at intervals of 1 month or greater.

Preventative: Apply at monthly intervals.

CHIPCO® GREEN can be applied year round.

MIXING AND SPRAYING:

Add the appropriate quantity of CHIPCO® GREEN to the spray tank, which contains half the required volume of water. Mix thoroughly and make up to the required volume with water. Maintain adequate agitation during application. Continue agitation at all times during spraying and stoppages until the tank is completely empty. Spray immediately after mixing.

Wash out all spray equipment thoroughly with water immediately after use.

Resistance Management:

CHIPCO® GREEN belongs to the dicarboxamide class of chemistry. There has been no record of managed amenity turf pathogens developing resistance to CHIPCO® GREEN.

To avoid the development of resistance, a resistance management strategy should be adopted. This strategy should include using in rotation and/or tank mixture with products that have a different mode of action or different chemical group that are effective against the target disease, as well as non chemical methods of control. Bayer recommends responsible product stewardship to ensure effective long term control of the fungal diseases on this label.

SAFETY PRECAUTIONS

Keep out of the reach of children.

To protect aquatic organisms respect an unsprayed buffer zone of 5m to surface water bodies

Direct spray away from water.

Operator Protection

TAKE OFF IMMEDIATELY heavily contaminated clothing.

WASH SPLASHES OF CONCENTRATE from skin and eyes immediately.

When using do not eat drink or smoke.

WASH HANDS before meals and after work.

In case of accident or if you feel unwell seek medical advice immediately (show the label where possible).

Environmental Protection

Do not contaminate water with the product or its container. Do not clean application equipment near surface water. Avoid contamination via drains from farmyards and roads.

Storage and Disposal

KEEP IN ORIGINAL CONTAINER, tightly closed, in a safe place.

WASH OUT CONTAINER THOROUGHLY and dispose of safely.

DO NOT RE-USE CONTAINER for any purpose.

Dispose of contents/container to a licensed hazardous waste disposal contractor or collection site except for triple rinsed empty containers which can be disposed of as non-hazardous waste

PROTECT FROM FROST.

SHAKE THE CONTAINER WELL BEFORE USE.

For Professional Use only

WHO-classification: III (Slightly hazardous).
