

10 Litres

nitro-gem

MOSS KILLER & LAWN TONIC

DIRECTIONS FOR USE

Nitro-gem is a soluble concentrate which contains 2% Nitrogen & 6% Sulphate of Iron. It is made from a rich nutrient seaweed extract which is designed to provide a dark green lawn and combat unwanted moss. The nitrogen and the nutrients, carbohydrates, vitamins, amino acids and plant hormones present in the seaweed contained in Ferro-gem will stimulate leaf and root growth, resulting in a healthier lawn.

Application: Best applied between March and late October. Most effective in Spring & Autumn. Only apply when grass is growing. Use only on lawns. **DO NOT** apply to newly sown or newly turfed areas (less than 6 months old). **DO NOT** apply in drought conditions as this will cause scorching. **DO NOT** apply if frost is expected or to waterlogged areas. **WATER** well in and again the next day if no rainfall is received. Apply 310ml per 10m² in 1.5 litres of water if using a sprayer, or 9 litres is using a watering can. Rake out any dead moss to help aid results.

HEALTH & SAFETY INFORMATION

Wash exposed areas of skin after use. Keep out of reach of children. Keep product in original container with the lid tightly closed. Protect from frost. Spray only on grass. When container is empty, wash out thoroughly and dispose of safely.
