

Sward – Booster™

AMINO ACID COMPLEX

5L

Sward-Booster takes plant nutrition beyond conventional fertilisers by combining a unique, powerful package of 19 essential amino-acids, humic acid complex, seaweed and major nutrients from organic and inorganic sources. It can be used on a wide range of fruits, vegetables, salad crops, vines, plants in propagation and on all ornamentals & trees.

Although developed for application primarily as a foliar fertiliser, it can also be applied through fertigation systems. Sward-Booster facilitates maximum utilisation of nutrients, water CO² and light to maximise growth efficiency. Hort-Booster is fast-acting with absorption into the crop within 12 to 24 hours. It can be tank mixed with a wide range of products.

Amino acids are fundamental ingredients in a protein's biosynthetic process. Studies have shown that amino acids can directly or indirectly benefit a plants physiological activities.

HEALTH & SAFETY INFORMATION

Avoid contact with skin & eyes. Wash hands after handling. Keep out of reach of children. Store in frost free conditions. This product is non-hazardous and non-flammable. For further information see the product safety data sheet.
